

IWC Community Care

Dear Community Partner,

At IWC Community Cares, we believe true healthcare leadership is measured not by titles, but by impact. Few embodied this principle more fully than **Dr. Suzanne Afflalo**, whose life's work ensured that no member of our community went unseen, unheard, or untreated, regardless of insurance status or financial means.

In her honor, IWC Community Cares is hosting the **Legacy Gala**, an evening dedicated to celebrating Dr. Afflalo's extraordinary commitment to community-first medicine while securing the future of the **Monthly Community Health and Resource Fair**, a vital lifeline for individuals who are uninsured or underinsured. **Your sponsorship ensures that preventive care and early detection remain accessible for those who need it most.**

Each month, the Community Health and Resource Fair brings together a volunteer team of medical professionals who provide essential screenings and early detection services, including diabetes screening, blood pressure checks, cholesterol assessments, and breast exams with evaluation of breast abnormalities with mammography referrals. For many attendees, this event represents their **primary access to medical care.**

The Legacy Gala will feature a special documentary film highlighting Dr. Afflalo's life, her work, and the profound ripple effect of her compassion. Select sponsors will have the opportunity to include a brief commercial or advertisement within the film, providing meaningful visibility while aligning with a mission that delivers measurable community impact. IWC Community Cares is inviting a select group of organizations to partner through table sponsorship, with proceeds directly funding the supplies, diagnostic tools, and operational needs required to keep the Monthly Community Health and Resource Fair active, accessible, and sustainable.

This evening is more than a gala; it is a call to action. By sponsoring a table, your organization becomes part of a shared promise: that Dr. Afflalo's legacy of compassionate, community-centered care will not only be remembered but actively carried forward.

To confirm your sponsorship, please contact the IWC Community Cares Legacy Gala Committee by February 28, 2026. Thank you for standing with IWC Community Cares in honoring Dr. Afflalo's legacy and ensuring preventive care remains accessible to those who need it most.

With gratitude and purpose,

Mr. Grady Gordon
